## **2017 Voice Competition Judging Guide for Participants**

The Voice competition invites students in Years 7-10 to present a prepared speech which proposes a solution to a given world problem, and will also test their impromptu speaking skills through an impromptu question and answer session.

For students, this is a wonderful opportunity to learn more about the world, as well as to present their views to their peers. This document is your guide to the UN Youth Australia Inc. Voice Competition Judging Procedure.

### **Voice Competition Structure**

Students will present a speech or pitch outlining a solution to a given world problem. The length of the speech depends on which age division the student is in (junior or senior).

After students have presented their pitch, students will leave the room whilst the judges deliberate. Students will then re-enter the room, and will be asked two questions on their speech or topic. The "Question Time" of the competition is based on the student's knowledge of their original topic and focuses around the validity and research involved in the speech. Students in both age divisions will be given two minutes to answer both these questions.

Both the Pitch and Question Time are taken into account for the judging process. The three core areas that are judged in a participant's speech in both the Pitch and Question Time are Matter, Manner, and Method, with Matter being the primary focus, supported by Manner and Method.

**A guide to what the Voice Judges will be looking for:**

Reasonable feasibility of proposal	Persuasive techniques employed	Persuasive structure

**Question Time**

Participants are to answer TWO (2) questions posed by the judging panel in regard to their solutions. Their responses will be assessed in regard to the above criteria.

Judges may ask any and all questions pertaining to the substance of the proposal as outlined in the sub-sections of the Matter judging criteria. Questions will only be directed towards the proposed solution, but may include aspects the participant has not touched upon.

Participants may ask for clarification regarding a question, or ask for a question to be reworded. They may not, however, enquire as to the validity, completeness, or relevance of their question.

Participants' must be directly relevant to the question asked.
